# Objective

Aspiring MERN Stack Developer with strong problem-solving skills and a passion for full-stack web development. Proficient in Data Structures and Algorithms with over 1500+ problems solved on CodeChef. Experienced in building modern web applications using MongoDB, Express.js, React, and Node.js. Eager to contribute to innovative tech projects and grow in a challenging development environment.

### **EDUCATION**

# BTech in CSE AI/ML

Dronacharya College of Engineering | Gurgaon | 2024 - 2028

## **Senior Secondary Examination (PCM)**

Adarsh Jain Sr. Sec. School | 2024

# **Secondary Examination**

Kendriya Vidyalaya| 2022

## **Projects**

NoteTaking Web App

Frontend Developer | React, JavaScript, CSS

- Developed a sleek note-taking app with features like real-time editing, saving, and tagging.
- Implemented responsive design for mobile and desktop using React functional components.
- Integrated local storage for persistent notes across sessions.

MiniTwitter (Full Stack Twitter Clone)

Full Stack Developer | MERN Stack

- Built a full-featured social media clone using MongoDB, Express, React, and Node.js.
- Features include user authentication (JWT), tweeting, liking, and commenting.
- Used Redux for state management and deployed via Vercel and Render.

## **SKILLS**

Languages: JavaScript, C, Java

Web Technologies: React, Node.js, Express.js, MongoDB, HTML, CSS

Tools & Platforms: Git, GitHub, VS Code, Postman DSA Platforms: CodeChef (1500+ problems), LeetCode

Concepts: Data Structures, Algorithms, RESTAPIs, Authentication

#### Certifications

- Data Structures and Algorithms CodeChef
- MongoDB Basics CodeHelp
- React Basics CodeHelp

### Interests

- Competitive Programming: Solved 1500+ questions on CodeChef
- Building Open Source Projects
- Learning Backend Scalability & System Design
